

SIMPLY CLEVER

ŠKODA

ŠKODA RAPID SPACEBACK ACCESSORIES

The new ŠKODA Rapid Spaceback is a car that creates excitement. Its spirited new design goes beyond established limits and documents the ever growing diversity of ŠKODA vehicles. Whether you are behind the wheel, admiring the Rapid Spaceback's curvaceous body from curb side, or relishing its generous luggage space, you feel that you are driving an exceptional car. With attractive and practical products from **ŠKODA Genuine Accessories** you can customize your Rapid Spaceback to even better meet your needs, fulfil your motoring dreams, and take full advantage of the vehicle's potential.

The broad range of ŠKODA Genuine Accessories offers a number of practical improvements and possibilities to enhance your style while also accentuating the vehicle's sporty character. Whether you choose a small interior red-leather sports package, a solemn front spoiler strip, safety test-proven child seats, high-quality roof racks, a practical netting system or a ŠKODA navigation system, you can always be certain that all products from our ŠKODA Genuine Accessories range are tailored to your car.

Products from the ŠKODA Genuine Accessories range are your guarantee of quality, safety and 100% compatibility with the given model.

All accessories are put through tests for functionality, reliability and endurance, so they will always make your trips more pleasant.

SPORT & DESIGN

Set of decorative foils for the side and fifth doors
(5JJ 064 317D in black glossy colour, 5JJ 064 317E
in black matt colour and 5JJ 064 317F in silver colour)

ŠKODA Genuine Accessories allow you to add even more style to your Rapid Spaceback, both inside and out. If, for example, you put the car on eye-catching black 17" wheels, sharpen up its looks even more by adding spoilers and treat yourself to stainless steel pedal covers. The possibilities for individualizing your Spaceback are truly wide-ranging. If you choose ŠKODA Genuine Accessories wheels when configuring your future vehicle, we will mount them on the car already at the assembly line. That means you will receive the vehicle with the wheels you selected and without the original serial set. Mounting and installation of ŠKODA Genuine Accessories design products, such as foils or spoilers, is performed by a long-time and reliable partner of ŠKODA AUTO. This ensures that the quality of a vehicle after installing the accessories fully corresponds to the quality of a newly manufactured serial vehicle upon final technical delivery.

Front bumper spoiler - splitter (5JJ 071 609A);
Front bumper spoiler (5JJ 071 609)

The **Red&Grey** Plus pack, in addition to doublecoloured design stripes foil set, includes the front and rear spoiler, 5th door spoiler and decorative side sill extensions. Combined with the exclusive 17" alloy wheels Savio in red and silver design, it comes even closer to the design study of ŠKODA Rapid SPORT while maintaining a dynamic and fresh design of Rapid Spaceback.

Rear bumper spoiler Monte Carlo
(5JJ 071 610B)

INTERIOR AS YOUR SECOND SELF

ŠKODA Rapid brings a revolutionary possibility of individualizing the car interior

Do you want to enjoy a memory of your finest trip? Or have those, who are waiting for you at home, always in sight? Or simply style your vehicle to the last detail? Fine-tune the interior of your vehicle with a decorative foil, which fits perfectly into the space on the dashboard in front of the passenger seat. But most importantly, which can carry any motive you can think of. Thus, it perfectly reflects your style, temperament or hobbies. And when they change? You can peel the foil off in one fell swoop, and you can spice up your car again!

Being a designer is so easy!

1. Capture your best

Take a photo of your motive, or choose any favorite picture. Be creative, imagination has no limits!

2. Just a few clicks

Go to the page of ŠKODA E-shop (eshop.skoda-auto.com), where you will find a simple application in the "Interior Foils" section. In a few easy steps, you first choose the type of dashboard decor (black, white or light gray and dark gray brushed), upload your photo, adjust the desired section, and then all you have to do is complete the order. The finished foil will be delivered by courier to your home.

3. Let's stick it on

Stick the delivered foil onto the dashboard according to the attached instructions. If you are unsure of your skills, do not hesitate to contact our service partners, who will be happy to help you.

Don't have your own idea at the moment?

If you want to decorate the interior of your vehicle to your liking but don't have a suitable picture, use the selection of ready themes. The pre-defined interior foils can also be ordered in the ŠKODA E-shop. You just need to decide, which one of the 9 black and white designs will be the right one for your car.

Front bumper chrome strip adds an eye-catching look at the front of the vehicle (5JA 071 311)

Glossy black strip of the rear bumper, suitable for combination with other black elements of the body (5JA 071 311A)

Decorative door sill strips with aluminium inserts protect the car body when getting in and out and while significantly improving the attractiveness of the interior (5JA 071 303)

Black door sill covers
Elegant protection for your Rapid Spaceback; door sill covers with stylish Rapid logo, protects surfaces of sills and simultaneously individualize the look of your car (5JA 071 303A)

Fifth-door spoiler positively alters the airflow behind the vehicle and helps to keep its back clean; it also plays an important role in the overall design of the body (5JJ 071 646)

Stainless steel foot pedal covers
These grippy sport pedals attachments in brushed stainless steel are a real win. While decent design impresses, anti-slip coating improves grip. The set includes attachment for gas and breake pedal for automatic transmission (5E1 064 205) and attachment for gas, brake and clutch pedal (5E1 064 200)

ALLOY WHEELS

Quality, safety and design

Alloy wheels from the line of ŠKODA Genuine Accessories vividly illustrate the joining of quality, function and aesthetics. Wheels from ŠKODA Genuine Accessories range pass through all tests such as serial production wheels and thus ensure their high quality and safety in traffic. Testing system is today developed so, that practically every part of the wheel is tested for material strain.

All wheels has to comply with strict requirements, that are imposed on this so-called "vital part". Certified suppliers guarantee quality and compliance with defined parameters of produced wheels. Due to the wide range of designs and colour versions of cast wheels, you can individualize your Rapid Spaceback exactly according to your imagination.

For maximizing the quality of products from the ŠKODA Genuine Accessories range, computer technology is used, such as seen on this alloy wheel simulation picture

INTERIOR INDIVIDUALIZATION - COLOUR LEATHER PACKAGE

The small sports leather package in red colour will lend the interior sporty style and more uniqueness: red leather steering wheel (5JA 064 241 3 sports steering wheel, 5JA 064 241A multifunctional steering wheel); red leather handbrake lever (5JA 064 300); red leather gear stick knob for cars for left-side driving 5JB 064 230 manual 5-speed transmission, 5JB 064 230A manual 6-speed transmission, 5JB 064 220 automatic transmission); right-side driving (5JC 064 230 manual 5-speed transmission, 5JC 064 230A manual 6-speed transmission, 5JC 064 220 automatic transmission)

MUSIC & COMMUNICATION

Driving the Rapid will be even more pleasant with ŠKODA Genuine Accessories. No more getting lost in unknown places, boredom during long motorway journeys or stopping for a phone call. You'll be reliably guided through unfamiliar locations by the navigation system. The radio will provide a high quality listening experience of your favourite music. Thanks to hands-free you can get in touch with your family or comfortably deal with urgent work matters.

SmartGate

SmartGate enables you to connect your smartphone or tablet via the ŠKODA vehicle systems application, thus obtaining interesting operational data, such as how economic or dynamic your driving is, service information, etc.*

Fatigue Detection Assistant

At speeds from 65 to 200 km per hour, the system evaluates data from the power steering sensors. When it detects behaviour that may indicate fatigue (such as more intensive direction corrections via the steering wheel), it sends an audible and visual signal to the driver, recommending to take a break.

Voice control system Amundsen/Bolero

The activation software is intended for the licence approval of the Voice Control system and its successful installation. Some device functions can be operated using voice commands, the device can be used more quickly and driving the car is a more comfortable experience. The Voice Control system can be used in the following menus: Radio, Media, Telephone, Navigation. Further important information can be found in the vehicle documentation. Installation must be carried out by an authorised ŠKODA partner. (Amundsen - 000 054 802, Bolero - 000 054 802A)

COMFORT & UTILITY

If ŠKODA Genuine Accessories share a single common denominator, it is summed up in the word "practical". A wide range of marvellously straightforward, "Simply Clever" solutions ensure that the Rapid Spaceback will be an practical everyday helper, just like all the other ŠKODA models. For you, in fact, maybe it will be even more so!

FOOT MATS

A car is a bit like a second home. To keep its interior neat and tidy, you can protect it with textile and rubber mats. They collect dirt and moisture, have non-slip surfaces, and their shape perfectly fills the space beneath the passengers' feet. While textile mats provide a comfortable feeling for your legs and contribute to later onset of fatigue for the driver, rubber mats are optimal for use in inclement weather, when larger amounts of dirt can get into the interior from the passengers' shoes. The mats can be taken out at any time, cleaned easily and replaced according to your need.

Holds and lasts

Did you know that textile mats from the ŠKODA Genuine Accessories line pass the so-called high-heel test? The test simulates a drivers leg work on accelerator pedal, pushing heel 5 mm deep into the surface of the mat in both dry and wet conditions at a 45° angle.

In addition, the mats undergo resistance stress tests for a duration of 60,000 travelled km and a test of the clips that attach the front mats to the vehicle's floor. The test is designed to determine a proper clip strength that must allow comfortable handling from the wiew of the customer while also keeping the mat in place even when being occasionally tugged while driving.

These fixing elements are verified solution that can be found in all the vehicles of Volkswagen group.

High-quality **textile foot mats** with the Rapid logo are made of thick woven velour and offer high comfort and resistance to wear. They perfectly fill the space beneath the passengers' feet and their non-slip clips to the floor keep them in their place in every situation. 4-piece set; Prestige (5JB 061 404B for left-side driving; 5JC 061 404B for right-side driving); Standard (5JB 061 404C for left-side driving; 5JC 061 404C for right-side driving)

Rubber foot mats provide ideal protection of the vehicle's interior during inclement weather. They collect dirt and moisture and are easy to clean. Four-piece mat sets for left-side (5JB 061 550) and right-side driving (5JC 061 550) are available

Device for high-heel test
Fixing elements strenght testing

However long you travel, a wooden **clothes hanger** can keep your coat, shirt or dress looking freshly pressed (3T0 061 127)

Cruise control is an ideal assistant for long journeys. It maintains the speed defined by the driver and allows changing it using a lever beneath the steering wheel. Your right foot can thus rest beside the accelerator pedal. The cruise control can be used for all types of engines and in vehicles with (5JB 054 690) or without (5JB 054 690A) an on-board computer

Thermoelectric cooling box with 20 litres of space will ensure snacks are at hand and at the right temperature. It can chill foods as needed and also two-liter bottles can be accommodated without problems in vertical transport (000 065 400E)

Multimedia holder into the center console will ensure quick availability and comfortable handling with your music player, cell phone or other multimedia devices (5JA 051 435A)

Everything in a Rapid Spaceback has its place, including discarded papers, tickets and candy wrappers. **Removable waste bin** placed in the front door clipboard will help to get rid of it easily (5JA 061 107 9B9 - black, 5JA 061 107 WC4 - beige)

Netting system keeps luggage in its place and helps keep the boot tidy. It also increases passenger safety by preventing the movement of objects in case of an accident. It is supplied in red (5JJ 065 110) or black (5JJ 065 110C)

Plastic boot dish provides maximum protection of the boot from dirt of all types, including acid. It has a high rim, is exceptionally strong and easy to clean (5JJ 061 162). An aluminium divider (3T0 017 254) and anti-slip netting (5JJ 061 163) can be placed inside

Removable organizer allows placing small objects in the boot, such as smaller purchases and work equipment, while keeping them together for handling (5JA 061 109)

Double-sided carpet provides a universal solution for the bottom of the boot. The velour side provides standard protection from soiling, while the non-slip plastic on the reverse side is there for transporting dirty or wet objects (5JJ 061 163A)

Rubber insert for the boot will prepare you for anything. Whether you transport dirty sport equipment, construction material, paint, or even acid, it will reliably protect your boot. The 5 cm rim will keep all fluids inside. The material has a washable and anti-slip surface (5JJ 061 190)

Transparent protective foil guards the rear bumper from damage while loading objects into the boot. Its size conforms to the size of the bumper, and, due to its transparency, the look of the body remains intact (5JJ 071 363A)

Protective cover of the rear bumper (5JJ 061 195)

Rear bumper cover foil provides maximum protection of the car body from scratches caused by loading objects in the area of the loading edge (5JJ 071 316)

Storage net boot pocket (5JJ 065 110B)

Rubber boot mat over the tunnel (5JA 061 580)

Trunk grille securely separates the passengers from the boot, thus increasing their safety should the luggage move about during emergency manoeuvres. It does not in any way decrease the volume of the interior, does not limit the driver's view and is suitable for transporting animals (5JJ 071 221)

Practical **ski sack** for transporting up to four pairs of skis with poles, with a continuous zipper and comfortable handles. An in-sewn band can be inserted into a lock inside the vehicle (DMA 600 004A)

Tough **front mud flaps** protect the underside of the vehicle, bumpers and door sills from dirt and dangerous flying rocks (5JA 071 111)

Rear mud flaps protect the rear of the vehicle, rear bumper and vehicles driving behind you from flying rocks and splashing water (5JJ 075 101)

Ice scraper for placement into the lid of the fuel tank is an ideal example of a "Simply Clever" product. It is always close at hand, due to its strong plastic will always do its job well, and when you do not need it, it is easy to store in its holder inside the tank lid (5JA 096 010)

Anyone who experiences the comfort of an **armrest** never wants to go back. In addition to supporting the driver's right elbow, it offers new storage area in an integrated, closable compartment (5JA 061 123)

Protective engine cover for motor vehicles with petrol engines (5JA 071 608); for vehicles with diesel engines (5JA 071 608A)

ŠKODA Genuine Accessories offers with selected models of cars produced lower protective engine cover which protects the engine against all adverse influences (water, dust, mud and rocks on the roads), during the winter time even against the de-icing salt, thus preventing the corrosion of metal components and damage to electronic devices (sensors, wiring, etc.). The cover reduces engine noise, and strengthens its protection and increases the life of its components (alternator, starter motor, belts, and other). It improves the car's aerodynamics, thus reducing the fuel consumption. The engine cover is made of plastic of the highest quality, which is characterized by high strength, elasticity and resistance against both mechanical (road gritting, gravel) and chemical (oil, fuel, etc.) damage. The material is resistant to temperature changes, so the with the changing temperature and weather conditions the cover does not change in size. Mounting the lower engine cover requires no modification to the chassis of the car.

TRANSPORT

Surely you have many plans with your family where to go, what to see and how to enjoy leisure time. Whether you go on a sports trip, discovery holiday or just a weekend at the cottage, even the large luggage compartment may not be sufficient. ŠKODA Genuine Accessories offer a simple solution in the form of products enabling you to transport sports equipment and other luggage outside the car's interior.

Lockable bicycle carrier with aluminium profile; capacity up to 20 kg
The bicycle holder is the right thing for all ambitious bikers. The carrier consists of an aerodynamically shaped aluminum profile and holder of chrome-plated steel. Easy mounting crossbars allows for easy handling. It weighs around 3.2 kg. The bicycle holder tested in City-Crash test is lockable. (3T0 071 128A)

No photo:

Lockable bicycle carrier with metal profile (3T0 071 128)

Luggage basket; including fastening net and straps (LBT 009 006)

Lockable ski or snowboard rack with aluminium profile;
capacity up to 4 pairs of skis or 2 snowboards (LBB 000 001)

No photo:

Lockable ski or snowboard rack with metal profile

Transport up to four pairs of skis or two snowboards on the roof of your vehicle - comfortably and safely. The ski and snowboard holder is not only easily mounted on the crossbars, but lockable also. The wide opening buttons lets you use the ski holder even in heavy gloves. Pull-out function makes loading and unloading easy. It is suitable even for transporting a wakeboard. (LBT 071 027)

Lockable ski and snowboard box; capacity up to 5 pairs of skis or 4 snowboards; 380-litre capacity; successfully passed City Crash Test (5L6 071 175); in black glossy (5L6 071 175B) or white color (5L6 071 175A)

The City Crash is a method of testing genuine accessories products that can be fitted to the vehicle's body.

Method: A section of the body is fitted to special skids, which are travelling at a speed of 30 km/h. At the moment of the simulated collision, the force reaches between 9 and 12 G's and lasts for 80 ms. **Evaluation:** In order to successfully pass the City Crash test, none of the transported objects may get detached from the body, which demonstrates that the safety of both pedestrians and other vehicles in real traffic is not endangered by the product.

**CITY CRASH
TESTED
TECHNOLOGY**

City Crash-tested **basic roof rack** is fastened very easily and is the foundation for mounting practical roof systems (5JJ 071 126)

Detachable tow bar is ideal for occasional use of a trailer. The tow bar can be removed at any time, and thus reduce the vehicle length and increase safety in case of an accident. (5JJ 092 155)

Electrics for cars without serial preapparation for the tow bar (left-side driving 5JB 055 204; right-side driving 5JC 055 204); for cars with serial preparation for the tow bar (5JJ 055 204)

No photo:

Non-detachable tow bar (5JA 092 101A)

BASIC ROOF RACK - WHEN YOUR CAR CAN CARRY EVEN MORE

Give the right tool to smart people and they can work miracles. Mount the ŠKODA Genuine Accessories basic roof rack onto the roof of a Rapid Spaceback and it will carry almost anything. Other roof systems can be easily attached to the basic roof rack, such as a bicycle carrier, ski and snowboard rack or box, luggage box, and the like.

The dimensions and shape of the basic roof rack from ŠKODA Genuine Accessories correspond perfectly to the Rapid Spaceback. The product's 100% compatibility with the vehicle avoids problems with installation and use while preventing potential safety risks that could arise in using non-genuine accessories.

Racks must pass many demanding tests. We test their water-tightness, resistance to corrosion, load-bearing capacity, strength and durability in various conditions. During the so-called City Crash test, a rack loaded with 90 kg must remain on the car's body even with a straining force of ca 12 G for 50 milliseconds (crash simulation).

Map simulation of tension induced by tightening the roof rack

Bicycle carrier for a tow bar can hold two bicycles weighing up to 25 kg each. Lockable bolts (LBT 009 005) permit flexible handling and better anchoring (000 071 105B)

SAFETY

Passenger safety has long been a top priority at ŠKODA AUTO. To complement the state-of-the-art safety systems, we offer safety products from the ŠKODA Genuine Accessories line for the Rapid Spaceback. Whether you choose a child seat, first aid box from the mandatory equipment or a snow chains, you can always be certain of maximum certified quality and 100% compatibility with your vehicle.

CHILD SEATS - KEEPING OUR LITTLE ONES COMFY AND SAFE

Do you want your children to sit in the safest spot possible? Child seats from ŠKODA Genuine Accessories with ISOFIX reliable anchoring, Top Tether attachment, the choice of travelling while facing forward or backward, comfort and adjustment to respect the child's growth provide the best solutions for transporting the smallest passengers.

Original ŠKODA child seats successfully passed the Euro NCAP tests.

Practical and variable

Smart seat design allows the child to sit not only at the back, but also next to the driver, where you can see him or her better. The seats are distinguished by variability and many setting positions, so that they can adjust to your child's changing size. They also can be used outside of the car as a carrier for transporting the child or as a practical seat.

Perfectly tested

The certainty of maximum possible safety and quality can only be achieved through rigorous testing. Therefore every seat in the ŠKODA Genuine Accessories line conforms with the ECE 44.04 European safety regulation and has passed a number of additional tests. Excellent results in the Euro NCAP crash test along with successful tests for non-flammability, absence of harmful substances, and lining quality confirm the seats' high quality and safety.

SIMPLY CLEVER STRATEGY

Every day brings new challenges to drivers. To help them manage these as best as they can, ŠKODA AUTO designs products while abiding by its "Simply Clever" philosophy. Through ingenious and simple solutions that are invaluable in practice, ŠKODA shapes the world of cars according to the everyday needs of their users. An ice scraper you can get to even before you get inside a snowed-under vehicle, or a double-sided mat for the boot, are just a small example of the famous Czech ingenuity, that wins even in the Rapid Spaceback.

"Simply Clever" features are popular not only because of their practicality, but also due to the fact that they are simple and therefore not costly solutions. ŠKODA vehicles can thus offer above-standard user-friendliness while maintaining an equally advantageous purchase price.

Basic roof rack

Open the way to a much larger carrying capacity for the ŠKODA Rapid Spaceback. You can attach a number of ŠKODA Genuine Accessories roof systems onto the basic roof rack and thus transport bicycles, skis and other luggage that you cannot fit inside.

Covers for complete wheels

Handy covers for a complete set of 14" to 18" wheels will make the seasonal wheel changing more pleasant while allowing you to safely store the wheels you are not currently using. Covers in ŠKODA colours are manufactured from strong materials and fitted with robust handles, which means they are tough and easy to carry. The practicality of the covers is further enhanced by such details as a pocket for the lug nuts and a pictogram indicating each wheel's placement on the vehicle.

Folding snow shovel

Carry a snow shovel in your car? Why not, if it is easy to store and weighs almost nothing! The ŠKODA shovel is made of aluminium alloy, so it is light and easy to handle. Because it can be disassembled into three pieces, it takes up minimal space in the boot. Even better, its plastic handle will not chill your hands even in winter.

Removable waste bin

Removable waste bin is an ideal example of ŠKODA Simply Clever products. Surely you were wondering many times, while driving, where to dispose of empty chewing gum wrapper, a crumpled bill or used tissue. With ŠKODA removable waste bin, all this tiny litter can be comfortably disposed of in one place and subsequently easily thrown away. So the interior of your car can remain clean.

ŠKODA RAPID SPACEBACK: SPORT PACK

Front spoiler in bicolour
Rear diffuser in body colour
5th door spoiler in body colour

RECOMMENDED WHEELS:

SAVIO POLISHED METALLIC BLACK 17"

RAY SILVER 17"

ŠKODA Service App Always on your side.
