ŠKODA

ŠKODA RAPID ACCESSORIES

The ŠKODA Rapid is a practical family car, which will prove itself in everyday life situations. However, if you wish to adapt the car to the specific wants and needs of your family, you will appreciate distinctive products from the **ŠKODA Genuine Accessories**.

The wide range of Rapid accessories offers attractive features including alloy wheels, which will give your car a unique style. To make your journeys more pleasant, you can select from our radios and navigation systems packed with modern technologies. The utility of the car can further be increased by the many accessories designed for the luggage compartment. Journey comfort is increased by other products, which can be used by the whole crew. We also bring you safety solutions including child seats for all age categories. A wide range is only one of the many advantages of using ŠKODA Genuine Accessories. All products have been approved by ŠKODA AUTO and are distinguished by their top quality. Among their other basic properties are reliability, safety and long life.

SPORT & DESIGN

The new ŠKODA design language speaks to us, via the Rapid model, with clear lines and clean surfaces. The simplicity and precision of the design forms the perfect basis for decorative accessories. Foils or exterior chrome elements will increase the elegance of the Rapid model and add to its uniqueness. Alloy wheels in a variety of colour combinations will accentuate the dynamic and robust look of the model.

Set of decorative foils for the side and 5th door (5JA 064 317A in silver colour, 5JA 064 317 in matt black colour and 5JA 064 317D in black glossy colour)

Front spoiler chrome strip (5JA 071 311)

5th door chrome strip*
(5JA 071 360)

Black decorative door sill covers with Rapid inscription
(5JA 071 303A)

Decorative door sill covers with Rapid inscription; with ALU insert
(5JA 071 303B)

Stainless steel foot pedal covers for LHD
(automatic transmission 5E1 064 205;
manual transmission 5E1 064 200)

* Available during the second quarter 2015

Sport paket: front bumper spoiler, rear bumper spoiler, 5th door spoiler, decorative lateral strips and exterior mirror covers in black design. Individually can be extended by black foil between rear bumper reflectors. We recommend a combination with 17" Ray alloy wheels in black metallic design and decorative strip of the front bumper in glossy black colour.

Front bumper spoiler

(available only in combination with 5th door spoiler under order nr. 5JH 071 600)

5th door spoiler

(5JH 071 640A)

Decorative strip of the front bumper

in glossy black design (5JA 071 311A)

INTERIOR AS YOUR SECOND SELF

ŠKODA Rapid brings a revolutionary possibility of individualizing the car interior

Do you want to enjoy a memory of your finest trip? Or have those, who are waiting for you at home, always in sight? Or simply style your vehicle to the last detail? Fine-tune the interior of your vehicle with a decorative foil, which fits perfectly into the space on the dashboard in front of the passenger seat. But most importantly, which can carry any motive you can think of. Thus, it perfectly reflects your style, temperament or hobbies. And when they change? You can peel the foil off in one fell swoop, and you can spice up your car again!

Being a designer is so easy!

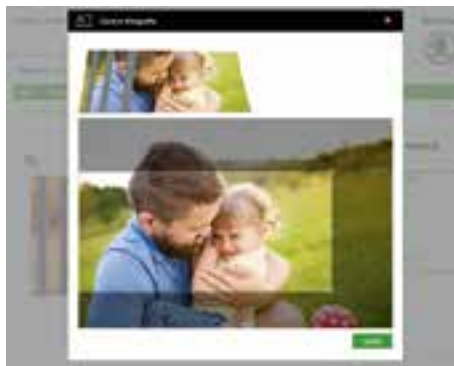

1. Capture your best

Take a photo of your motive, or choose any favorite picture. Be creative, imagination has no limits!

2. Just a few clicks

Go to the page of ŠKODA E-shop (eshop.skoda-auto.com), where you will find a simple application in the "Interior Foils" section. In a few easy steps, you first choose the type of dashboard decor (black, white or light gray and dark gray brushed), upload your photo, adjust the desired section, and then all you have to do is complete the order. The finished foil will be delivered by courier to your home.

3. Let's stick it on

Stick the delivered foil onto the dashboard according to the attached instructions. If you are unsure of your skills, do not hesitate to contact our service partners, who will be happy to help you.

Don't have your own idea at the moment?

If you want to decorate the interior of your vehicle to your liking but don't have a suitable picture, use the selection of ready themes. The pre-defined interior foils can also be ordered in the ŠKODA E-shop. You just need to decide, which one of the 9 black and white designs will be the right one for your car.

MUSIC & COMMUNICATION

Driving the Rapid will be even more pleasant with ŠKODA Genuine Accessories. No more getting lost in unknown places, boredom during long motorway journeys or stopping for a phone call. You'll be reliably guided through unfamiliar locations by the navigation system. The radio will provide a high quality listening experience of your favourite music. Thanks to hands-free you can get in touch with your family or comfortably deal with urgent work matters.

SmartGate

SmartGate enables you to connect your smartphone or tablet via the ŠKODA vehicle systems application, thus obtaining interesting operational data, such as how economic or dynamic your driving is, service information, etc.*

Fatigue Detection Assistant

At speeds from 65 to 200 km per hour, the system evaluates data from the power steering sensors. When it detects behaviour that may indicate fatigue (such as more intensive direction corrections via the steering wheel), it sends an audible and visual signal to the driver, recommending to take a break.

Protective engine cover
for motor vehicles with petrol
engines (5JA 071 608);
for vehicles with diesel engines
(5JA 071 608A)

ŠKODA Genuine Accessories offers with selected models of cars produced lower protective engine cover which protects the engine against all adverse influences (water, dust, mud and rocks on the roads), during the winter time even against the de-icing salt, thus preventing the corrosion of metal components and damage to electronic devices (sensors, wiring, etc.). The cover reduces engine noise, and strengthens its protection and increases the life of its components (alternator, starter motor, belts, and other). It improves the car's aerodynamics, thus reducing the fuel consumption. The engine cover is made of plastic of the highest quality, which is characterized by high strength, elasticity and resistance against both mechanical (road gritting, gravel) and chemical (oil, fuel, etc.) damage. The material is resistant to temperature changes, so the with the changing temperature and weather conditions the cover does not change in size. Mounting the lower engine cover requires no modification to the chassis of the car.

Trunk grille

TRANSPORT

Surely you have many plans with your family where to go, what to see and how to enjoy leisure time. Whether you go on a sports trip, discovery holiday or just a weekend at the cottage, even the large luggage compartment may not be sufficient. ŠKODA Genuine Accessories offer a simple solution in the form of products enabling you to transport sports equipment and other luggage outside the car's interior.

Lockable bicycle carrier with aluminium profile; capacity up to 20 kg
The bicycle holder is the right thing for all ambitious bikers. The carrier consists of an aerodynamically shaped aluminium profile and holder of chrome-plated steel. Easy mounting crossbars allow for easy handling. It weighs around 3.2 kg. The bicycle holder tested in City-Crash test is lockable (3T0 071 128B)
No photo: **Lockable bicycle carrier with metal profile** (3T0 071 128)

Luggage basket; including fastening net and straps (LBT 009 006)

Lockable ski or snowboard rack with aluminium profile; capacity up to 4 pairs of skis or 2 snowboards (LBB 000 001)
No photo: **Lockable ski or snowboard rack with metal profile**
Transport up to four pairs of skis or two snowboards on the roof of your vehicle - comfortably and safely. The ski and snowboard holder is not only easily mounted on the crossbars, but lockable also. The wide opening buttons lets you use the ski holder even in heavy gloves. Pull-out function makes loading and unloading easy. It is suitable even for transporting a wakeboard (LBT 071 027)

Lockable ski and snowboard box; capacity up to 5 pairs of skis or 4 snowboards; 380-litre capacity; successfully passed City Crash Test
(silver 5L6 071 175, black 5L6 071 175A, white 5L6 071 175B)

The City Crash is a method of testing genuine accessories products that can be fitted to the vehicle's body, such as roof railings, transverse roof racks and other transport systems including boxes, bicycle, ski and surfboard carriers etc. Method: A section of the body is fitted to special skids, which are travelling at a speed of 30 km/h. At the moment of the simulated collision, the force reaches between 9 and 12 G's and lasts for 80 ms. Evaluation: In order to successfully pass the City Crash test, none of the transported objects may get detached from the body, which demonstrates that the safety of both pedestrians and other vehicles in real traffic is not endangered by the product.

SAFETY

Car safety extends from the well-being of the crew through to the security of the car itself and the mandatory equipment. This is why our range is so wide, offering, among others, child seats, a mechanical drive locking system and first aid box. We have thought of everything, including how to prevent getting stuck on a snowy mountain road – just pack in the snow chains and shovel.

Child seats - keeping our little ones comfy and safe

Do you want your children to sit in the safest spot possible? Child seats from ŠKODA Genuine Accessories with ISOFIX reliable anchoring, Top Tether attachment, the choice of travelling while facing forward or backward, comfort and adjustment to respect the child's growth provide the best solutions for transporting the smallest passengers.

Practical and variable

Smart seat design allows the child to sit not only at the back, but also next to the driver, where you can see him or her better. The seats are distinguished by variability and many setting positions, so that they can adjust to your child's changing size. They also can be used outside of the car as a carrier for transporting the child or as a practical seat.

Perfectly tested

The certainty of maximum possible safety and quality can only be achieved through rigorous testing. Therefore every seat in the ŠKODA Genuine Accessories line conforms with the ECE 44.04 European safety regulation and has passed a number of additional tests. Excellent results in the Euro NCAP crash test along with successful tests for non-flammability, absence of harmful substances, and lining quality confirm the seats' high quality and safety.
