

SIMPLY CLEVER

ŠKODA

THE NEW ŠKODA OCTAVIA ACCESSORIES

The ŠKODA Octavia can meet many expectations, so it's no wonder it has been popular with families who have kids as well as, for instance, young couples with an active lifestyle. However, the Octavia has also been a popular business car as well as a pleasant commuting companion. And each Octavia owner puts emphasis on different things – that's where the range of **ŠKODA Genuine Accessories** comes into play. With them, you can accentuate the features of your car that are crucial for you – like individualising it with design features such as alloy wheels or decorative foils giving it a sportier look, underscoring its comfort or increasing its transport capacity.

Products from the range of ŠKODA Genuine Accessories are actually an extension of our standard and extra equipment levels and as such they have been approved by ŠKODA AUTO. Their other advantages include a long service life, safety, original design and accurate fit. You can get ŠKODA Genuine Accessories together with competent advice and service from any authorised ŠKODA partner.

SPORT & DESIGN

Whether you want a sportier look for your car or just wish to add a more individual touch to it, you will certainly find the right solution with our sport & design product range. The simple and precise design of the new Octavia model forms a perfect basis for our sports packages and other decorative features from the ŠKODA Genuine Accessories.

Sport Look package: a set of decorative foils in black colour with a carbon texture and 5th door spoiler for Octavia or roof spoiler for Octavia Combi and external mirrors in black colour. We recommend a combination with 18" Turini alloy wheels in matt black design and decorative strip of the front bumper in glossy black colour.

Sport package: front bumper spoiler, rear bumper spoiler, 5th door spoiler for Octavia or roof spoiler for Octavia Combi and decorative lateral strips . We recommend a combination with 18" Turini alloy wheels in matt black design and decorative strip of the front bumper in glossy black colour.

Parts of the **Sport pack** can also be ordered as a single parts under order numbers: Front bumper spoiler (5E0 071 606); rear bumper spoiler (5E0 071 610); 5th door spoiler for Octavia (5E5 071 605A); decorative lateral strips (5E0 071 328)

In addition to the complete packages, you can chose from our individual products that will increase the attractiveness and underline the unique character of your car. Our range includes spoilers, chrome exterior elements, door sill covers as well as exclusive leather features for the interior. The individuality of your car can further be accentuated with alloy wheels, some of which are available also in black or white design.

 driving (5E1 064 230D WZI manual 5-speed transmis-
 sion, 5E1 064 230E manual 6-speed transmission)

* available only for cars produced till CW 22/15

ALLOY WHEELS

Quality, safety and design

Alloy wheels from the line of ŠKODA Genuine Accessories vividly illustrate the joining of quality, function and aesthetics. Wheels from ŠKODA Genuine Accessories range pass through all tests such as serial production wheels and thus ensure their high quality and safety in traffic. Today, the testing system is so developed that practically every part of the wheel is tested for material strain.

All wheels have to comply with strict requirements that are imposed on this so-called "vital part". Certified suppliers guarantee quality and compliance with defined parameters of produced wheels. Due to the wide range of designs and colour versions of cast wheels, you can individualize your Octavia exactly according to your imagination.

For maximizing the quality of products from the ŠKODA Genuine Accessories range, computer technology is used, such as seen on this alloy wheel simulation picture

MUSIC & COMMUNICATION

If you want to listen to your favourite music or always easily find your way to a new destination, get acquainted with our products from the music & communication range. Our radios will not only create a relaxed atmosphere in the car but also enable you to receive traffic reports. In addition, all our devices allow information to be displayed on the Maxi DOT display, have an input for a hands-free set and can be controlled from the multifunctional steering wheel.

SmartGate

SmartGate enables you to connect your smartphone or tablet via the ŠKODA vehicle systems application, thus obtaining interesting operational data, such as how economic or dynamic your driving is, service information etc.* (6V0 063 218)

Fatigue Detection Assistant

At speeds from 65 to 200 km per hour, the system evaluates data from the power steering sensors. When it detects behaviour that may indicate fatigue (such as more intensive direction corrections via the steering wheel), it sends an audible and visual signal to the driver, recommending to take a break. Voice control system Amundsen/Bolero

The activation software is intended for the licence approval of the Voice Control system and its successful installation. Some device functions can be operated using voice commands, the device can be used more quickly and driving the car is a more comfortable experience. The Voice Control system can be used in the following menus: Radio, Media, Telephone, Navigation. Further important information can be found in the vehicle documentation. Installation must be carried out by an authorised ŠKODA partner. (Amundsen - 000 054 802, Bolero - 000 054 802A)

UPDATE YOUR MAPS AND SOFTWARE

Our goal is to make your life easier and your trips a pleasure. To achieve this, we prepared a new Infotainment Portal for you, using state-of-the-art technologies. Visit <http://infotainment.skoda-auto.com>, enter your vehicle VIN code and see how easy it is. The system recognises which updates you need and offers you the chance to download them comfortably at home. If you buy a new ŠKODA vehicle or navigation system, you get free map updates of your Europe navigation database for three years.

MAP UPDATES

Any road network is subject to ongoing changes, which means you must update the memory of your navigation system. This is the only way to travel securely to your destination every time, find the shortest route and enjoy your trip. For this reason, map updates save you time and money.

SOFTWARE UPDATES

Don't forget to update other software in your Infotainment system.

COMPATIBILITY LIST

This application will display your external device (smartphone, tablet) compatibility with software functions of the Infotainment system (Bluetooth, SmartLink™ etc.).

MY DESTINATIONS

Through the MyDestination App you can set up destinations of your upcoming trip comfortably at home. Then you simply import the list to your navigation device. You no longer have to sit in your car while preparing your route. Controlling the navigation device is easier and more comfortable with this application.

COMFORT & UTILITY

The wide range of comfort & utility products from ŠKODA Genuine Accessories enables you to increase both passenger comfort and the practicality of your car in any season of the year. While some accessories will make you look forward to your summer trips even more, a ski sack will come in handy on your winter sports trips. Foot mats as well as a boot mat or a plastic boot dish will help you keep your car clean and the netting system or the multifunctional box under the luggage compartment cover will considerably enhance the storage options in your car.

TRANSPORT

With ŠKODA Genuine Accessories transport products, you can set off for winter or summer sports even in a fully occupied car. In addition to the spacious boot, you have even more storage space – on the roof. We offer you practical and reliable roof racks as well as various lockable carriers and holders for your bikes and snowboards. In addition, there is a ski box in the ŠKODA design and a bicycle carrier mounted to the tow bar.

Lockable bicycle carrier with aluminium profile; capacity up to 20 kg
The bicycle holder is the right thing for all ambitious bikers. The carrier consists of an aerodynamically shaped aluminium profile and holder of chrome-plated steel. Easy mounting crossbars allow for easy handling. It weighs around 3.2 kg. The bicycle holder tested in City-Crash test is lockable (3T0 071 128B)
No photo: **Lockable bicycle carrier with metal profile** (3T0 071 128)

Luggage basket; including fastening net and straps (LBT 009 006)

Lockable ski or snowboard rack with aluminium profile; capacity up to 4 pairs of skis or 2 snowboards (LBB 000 001)
No photo: **Lockable ski or snowboard rack with metal profile**
Transport up to four pairs of skis or two snowboards on the roof of your vehicle - comfortably and safely. The ski and snowboard holder is not only easily mounted on the crossbars, but lockable also. The wide opening buttons lets you use the ski holder even in heavy gloves. Pull-out function makes loading and unloading easy. It is suitable even for transporting a wakeboard (LBT 071 027)

Lockable ski and snowboard box; capacity up to 5 pairs of skis or 4 snowboards; 380-litre capacity; successfully passed City Crash Test (5L6 071 175); in black metallic colour (5L6 071 175A); in white colour (5L6 071 175B)

Basic roof rack (5E5 071 126)

CITY CRASH TESTED TECHNOLOGY The **City Crash** is a method of testing genuine accessories products that can be fitted to the vehicle's body, such as roof railings, transverse roof racks and other transport systems including boxes, bicycle, ski and surfboard carriers etc.

Method: A section of the body is fitted to special skids, which are travelling at a speed of 30 km/h. At the moment of the simulated collision, the force reaches between 9 and 12 G's and lasts for 80 ms.

Evaluation: In order to successfully pass the City Crash test, none of the transported objects may get detached from the body, which demonstrates that the safety of both pedestrians and other vehicles in real traffic is not endangered by the product.

SAFETY

Car safety extends from the well-being of the crew through to the security of the car itself and the mandatory equipment. This is why our range is so wide, offering, among others, child seats, a mechanical drive locking system and first aid box. We have thought of everything, including how to prevent getting stuck on a snowy mountain road – just pack in the snow chains and a shovel.

CHILD SEATS – KEEPING OUR LITTLE ONES COMFY AND SAFE

Do you want your children to sit in the safest spot possible? Child seats from ŠKODA Genuine Accessories with ISOFIX reliable anchoring, Top Tether attachment, the choice of travelling while facing forward or backward, comfort and adjustment to respect the child's growth provide the best solutions for transporting the smallest passengers.

Original ŠKODA child seats successfully passed the Euro NCAP tests.

Practical and variable

Smart seat design allows the child to sit not only at the back, but also next to the driver, where you can see him or her better. The seats are distinguished by variability and many setting positions, so that they can adjust to your child's changing size. They also can be used outside of the car as a carrier for transporting the child or as a practical seat.

Perfectly tested

The certainty of maximum possible safety and quality can only be achieved through rigorous testing. Therefore every seat in the ŠKODA Genuine Accessories line conforms with the ECE 44.04 European safety regulation and has passed a number of additional tests. Excellent results in the Euro NCAP crash test along with successful tests for non-flammability, absence of harmful substances, and lining quality confirm the seats' high quality and safety.

Car care products (information about the complete offer
from your authorised ŠKODA partner)

ŠKODA Service App Allways on your side.

These products represent just a part of the wide range of accessories. For more information on the complete range, current prices, delivery terms and lead times, contact your authorised ŠKODA partner. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes (including changes in technical parameters or individual model equipment). This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.

The environmental logo expresses ŠKODA Auto's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.
