

SIMPLY CLEVER

ŠKODA

ŠKODA YETI ACCESSORIES

ŠKODA Yeti is the perfect companion for adventures in travel. You can further enhance and customize the Yeti to suit your needs using packages and products from the expansive offer of **ŠKODA Genuine Accessories**. With the Sport design package, it can become a stylish jewel for city boulevards, while the Outdoor Plus package will transform it into a dauntless and rugged ally to face every adversity.

ŠKODA Genuine Accessories offers a wide range of products that will readily improve your safety, boost your transport capacity, enhance your comfort, and increase the usefulness and attractiveness of your vehicle.

Whether you choose design amendments because easy transport of sports equipment is important for you, or you underscore safety and protection for your children in car seats, **ŠKODA Genuine Accessories** will always provide you optimal solutions. All accessories are distinguished by stringently tested and proven quality plus 100% compatibility with ŠKODA Yeti vehicles.

SPORT & DESIGN

ŠKODA Genuine Accessories provide a broad range of options for customizing your Yeti both inside and out. For example, sporty pedal covers and decorative doorsill strips with aluminium inserts contribute to a sporty driving feel inside, and you can underscore the car's dynamics with spoilers or accessories having an aluminium-look design scheme. In addition to their designer effect, they also have a protective function and help to keep the vehicle in its best shape. That means you are taking care of your Yeti even as you enhance its appearance. The possibilities for individualizing your Yeti are truly wide-ranging. If you choose ŠKODA Genuine Accessories wheels when configuring your future vehicle, we will mount them on the car already at the assembly line. That means you will receive the vehicle with the wheels you selected and without the original serial set.

Outdoor Plus pack

For the ŠKODA Yeti Outdoor variant, we have put together the Plus design package. It consists of protective doorsills and strips with aluminium-look detailing to make your vehicle unique. All three components of the package can also be purchased individually, but their combined effect is the strongest.

Rear bumper protective strip - aluminium look

This strip protecting the bumper from mechanical damage when loading and unloading the boot is made of high-quality, through-coloured material and is finished off with silver lacquer to create the appearance of aluminium. For Yeti Outdoor (5L6 061 195)

No photo:

Rear bumper protective strip - aluminium look for Yeti

(5L0 061 195)

Side protective strips with aluminium look insert

Side protective strips will prevent minor scrapes and dents in cramped parking lots, and their aluminium inserts will improve the appearance of the vehicle, especially when combined with other details having the aluminium look. The strips also limit dirtiness of the vehicle above their level (5L0 071 329A)

Side doorsill covers - aluminium look

Impressive side doorsill covers made of plastic with an aluminium look will protect the sides of the vehicle's undercarriage from scratches. Together with a decorative cover for the front bumper, they create the basis for the rugged look of the Outdoor variant (5L0 071 685)

Sport pack

You can give the ŠKODA Yeti a more sporty and dynamic look with the Sport package. A more assertive look is provided especially by front and rear bumper spoilers, that enhance the vehicle's side silhouette. Side doorsill covers that protect the body from flying rocks and the decorative front bumper strip are small details, but they are important for the vehicle's overall impression. Products in the Yeti Sport package can also be purchased individually.

Parts of Sport pack

Front bumper spoiler for a sportier appearance at the vehicle's front(5L0 071 609)

Side doorsill covers
Sturdy doorsill covers for even more dynamic look of your Yeti (5L0 071 685A)

Rear spoiler
In combination with the front spoiler, it helps the Yeti to fulfil its sporty ambitions (5L6 071 610 for cars without serial preparation for the tow bar; 5L6 071 610A for cars with serial preparation for the tow bar)

Decorative front spoiler strip
A strip lacquered in the vehicle's colour for a stylish addition to the vehicle's visage (5L0 071 004A)

Side mirror covers – aluminium look
When purchasing a Yeti vehicle you can decide between three designs of side mirror covers. The basic black variant can be replaced with covers in the colour of the body, or in silver with an aluminium look. Silver mirrors are standard for the Yeti Outdoor model (5L0 071 719)

Side mirror covers in black design
Side mirror covers in black metallic design (5L0 072 530)

Stainless steel exhaust tailpipe
This will make the rear of your Yeti shine like a jewel. The high-quality material will also provide the tailpipe with excellent protection against corrosion. For 1.2 TSI (5L0 071 910A)

Stainless steel exhaust tailpipe
For 1.4 TSI and 2.0 TDI CR 81 kW/103 kW (5L0 071 911A)

Stainless steel foot pedal covers

These non-slip sport pedals attachments in brushed stainless steel are a real win. While decent design impresses, anti-slip coating improves grip. 3-piece set for manual transmission (5L1 064 200); 2-piece set for automatic transmission (5L1 064 205)

Restraint - A-pillar
(5L0 064 209)

Decorative door sill strips with aluminium inserts protect the car body when getting in and out and while significantly improving the attractiveness of the interior (5L0 071 303)

Black door sill covers
Protection for your Yeti; door sill covers with stylish Yeti sign, protect surfaces of sills and simultaneously individualize the look of your car (5L0 071 303A)

Alloy wheels

Quality, safety and design

Alloy wheels from the line of ŠKODA Genuine Accessories vividly illustrate the joining of quality, function and aesthetics. Wheels from ŠKODA Genuine Accessories range pass through all tests such as serial production wheels and thus ensure their high quality and safety in traffic. Today, the testing system is so developed that practically every part of the wheel is tested for material strain.

All wheels have to comply with strict requirements that are imposed on this so-called "vital part". Certified suppliers guarantee quality and compliance with defined parameters of produced wheels. Due to the wide range of designs and colour versions of cast wheels, you can individualize your Yeti exactly according to your imagination.

For maximizing the quality of products from the ŠKODA Genuine Accessories range, computer technology is used, such as seen on this alloy wheel simulation picture

MUSIC & COMMUNICATION

State-of-the-art multimedia devices inside Yeti vehicles help to produce ideal conditions for comfortable and safe travel. These include players for the most popular media formats, clever navigation systems, hands-free telephoning, and the possibility to connect personal electronic devices. Now, nothing is simpler than listening to your favourite music while driving, making those phone calls you could not get done before you left or confidentially allowing yourself to be navigated where you would undoubtedly be lost without a map. The display of the multimedia device is also used for presenting useful information from the on-board computer and the image from the rear parking camera.

SmartGate

SmartGate enables you to connect your smartphone or tablet via the ŠKODA vehicle systems application, thus obtaining interesting operational data, such as how economic or dynamic your driving is, service information etc.* (6V0 063 218)

Drive

Fatigue Detection Assistant

At speeds from 65 to 200 km per hour, the system evaluates data from the power steering sensors. When it detects behaviour that may indicate fatigue (such as more intensive direction corrections via the steering wheel), it sends an audible and visual signal to the driver, recommending to take a break. (5E0 054 801)

Voice control system Amundsen/Bolero

The activation software is intended for the licence approval of the Voice Control system and its successful installation. Some device functions can be operated using voice commands, the device can be used more quickly and driving the car is a more comfortable experience. The Voice Control system can be used in the following menus: Radio, Media, Telephone, Navigation. Further important information can be found in the vehicle documentation. Installation must be carried out by an authorised ŠKODA partner. (Amundsen - 000 054 802, Bolero - 000 054 802A)

UPDATE YOUR MAPS AND SOFTWARE

Our goal is to make your life easier and your trips a pleasure. To achieve this, we prepared a new Infotainment Portal for you, using state-of-the-art technologies. Visit <http://infotainment.skoda-auto.com>, enter your vehicle VIN code and see how easy it is. The system recognises which updates you need and offers you the chance to download them comfortably at home. If you buy a new ŠKODA vehicle or navigation system, you get free map updates of your Europe navigation database for three years.

MAP UPDATES

Any road network is subject to ongoing changes, which means you must update the memory of your navigation system. This is the only way to travel securely to your destination every time, find the shortest route and enjoy your trip. For this reason, map updates save you time and money.

SOFTWARE UPDATES

Don't forget to update other software in your Infotainment system.

COMPATIBILITY LIST

This application will display your external device (smartphone, tablet) compatibility with software functions of the Infotainment system (Bluetooth, SmartLink™ etc.).

MY DESTINATIONS

Through the MyDestination App you can set up destinations of your upcoming trip comfortably at home. Then you simply import the list to your navigation device. You no longer have to sit in your car while preparing your route. Controlling the navigation device is easier and more comfortable with this application.

Navigation SD cards

COMFORT & UTILITY

Whether you drive just a few kilometres to work or set off for a long journey to go hiking, you need not sacrifice the comfort to which you are accustomed. ŠKODA Genuine Accessories will allow you to customize the vehicle's interior so that it remains comfortable, orderly and practical – whatever or whomever you carry. With such clever features as a false floor for the boot, sun screens on the rear windows and a convenient thermoelectric cooling box, travelling in a Yeti will become a pleasant everyday activity.

Foot mats

A car is a bit like a second home. To keep its interior neat and tidy, you can protect it with textile and rubber mats. They collect dirt and moisture, have non-slip surfaces, and their shape perfectly fills the space beneath the passengers' feet. While textile mats provide a comfortable feeling for your legs and contribute to later onset of fatigue for the driver, rubber mats are optimal for use in inclement weather, when larger amounts of dirt can get into the interior from the passengers' shoes. The mats can be taken out at any time, cleaned easily and replaced according to your need.

Holds and lasts

Did you know that textile mats from the ŠKODA Genuine Accessories line pass the so-called high-heel test? The test simulates a driver's leg work on accelerator pedal, pushing heel 5 mm deep into the surface of the mat in both dry and wet conditions at a 45° angle. In addition, the mats undergo resistance stress tests for a duration of 60,000 travelled km and a test of the clips that attach the front mats to the vehicle's floor. The test is designed to determine a proper clip strength that must allow comfortable handling from the view of the customer while also keeping the mat in place even when being occasionally tugged while driving. These fixing elements are verified solution that can be found in all the vehicles of Volkswagen group.

High-quality **textile foot mats** with the Yeti sign are made of thick woven velour and offer high comfort and resistance to wear. They perfectly fill the space beneath the passengers' feet, and their non-slip clips to the floor keep them in their place in every situation. 4-piece set; Prestige (5L1 061 404 for left-side driving; 5L2 061 404 for right-side driving); Standard (5L1 061 404A for left-side driving; 5L2 061 404A for right-side driving)

Rubber foot mats provide ideal protection of the vehicle's interior during inclement weather. They collect dirt and moisture and are easy to clean. Four-piece mat sets for left-side (5L1 061 550B) and right-side driving (5L2 061 550B) are available.

No photo:

Thermoelectric cooling box with 20 litres of space will ensure snacks are at hand and at the right temperature. It can chill foods as needed and also two-litre bottles can be accommodated without problems in vertical transport (000 065 400E)

Thermoelectric cooling box 15 l Keep beverages cool and fruit fresh for longer time. As need arises, you can switch the box to heating mode to keep your snack or the children's lunch warm (5L0 065 400)

Cruise control is an ideal assistant for long journeys. It maintains the speed defined by the driver and allows changing it using a lever beneath the steering wheel. Your right foot can thus rest beside the accelerator pedal. The cruise control can be used for all types of engines and in vehicles with (3T0 035 623) or without (3T0 035 623A) an on-board computer

Ruber boot mat over tunnel for cars without arm rest (5L0 061 580); for cars with arm rest (5L0 061 580A)

Rubber foot mats with raised edge (5L1 061 550A)

Multimedia holder into the centre console will ensure quick availability and comfortable handling with your music player, cell phone or other multimedia devices (5JA 051 435A)

Everything in a Yeti has its place, including discarded papers, tickets and candy wrappers. **Removable waste bin** placed in the front door clipboard will help to get rid of it easily. Available in two colours (5JA 061 107 9B9 - black; 5JA 061 107 WC4 - beige)

Child rear view mirror for a clearer view of the rear seats in black colour (000 072 549B 9B9); in beige colour (000 072 549B WC4); in grey colour (000 072 549B Y20)

However long you travel, a wooden **clothes hanger** can keep your coat, shirt or dress looking freshly pressed (3TO 061 127)

Practical **ski sack** for transporting two pairs of skis with poles, with a continuous zipper and comfortable handles. An in-sewn band can be inserted into a lock inside the vehicle (DMA 630 004)

Luggage compartment cover

The cover for the gap created between the rear seats and luggage compartment lid uses the VarioFlex system. It will maintain the appearance of the interior while preventing undesirable visibility for passers-by (DMK 630 001)

Trunk grille securely separates the passengers from the boot, thus increasing their safety should the luggage move about during emergency manoeuvres. It does not in any way decrease the volume of the interior, does not limit the driver's view and is suitable for transporting animals (DMM 630 001)

Rear window sun screens

The screens provide greater privacy and protection from scorching sun for the passengers in the rear seats while still maintaining sufficient visibility through the window for the driver (5LO 064 361)

No photo:

Boot side window sunblinds (5LO 064 363)

5th door window sunblind (5LO 019 120)

Transparent protective foil guards the rear bumper from damage while loading objects into the boot. Its size conforms to the size of the bumper, and, due to its transparency, the look of the body remains intact (5L6 071 363 for Yeti; 5L6 071 363A for Yeti Outdoor)

Rear bumper cover foil provides maximum protection of the car body from scratches caused by loading objects in the area of the loading edge (KDX 630 001)

Tough **front mud flaps** protect the underside of the vehicle, bumpers and door sills from dirt and dangerous flying rocks (KEA 630 001)

Rear mud flaps protect the rear of the vehicle, rear bumper and vehicles driving behind you from flying rocks and splashing water (5L0 075 101 for Yeti; 5L0 075 101A for Yeti Outdoor)

Bottom protective guard of the assembly for engines 1,2 TSI; 1,4 TSI; 1,6 TDI; 2,0 TDI 83 kW / 103 kW (5L0 071 608); for engines 1,8 TSI (5L0 071 608A); for engines 2,0 TDI (5L0 071 608B)

False floor A practical false floor horizontally divides the luggage compartment and also squares off the cargo area at the level of the folded-down back seats. Two variants are available: one for a vehicle with a spare tyre and one for a vehicle without it (DAA 630 001)

Bag for the luggage compartment This washable bag provides an ideal place for stowing tools and other objects in the luggage compartment. Its hooks allow you also to attach it to the side wall (DMK 770 003)

The protective back seat cover, suspended between the front and rear headrests, protects the seats from soiling by objects or animals. It is manufactured from durable, waterproof and easily washable material, so it can be used for protection even when there is a risk of substantial soiling (DMA 009 001)

No photo:
Bag for carrying outer rear seat (DMK 770 004)
Bag for carrying middle rear seat (DMK 770 006)

Netting system keeps luggage in its place and helps keep the boot tidy. It also increases passenger safety by preventing the movement of objects in case of an accident. 5-piece set in silver colour (DMA 630 003 for boot without spare wheel; DMA 630 002 for false floor); 4-piece set (DMA 630 001 for boot with spare wheel)

Anti-slip net for the plastic boot liner
Anti-slip net fits perfectly to the bottom of the plastic boot liner and thus prevents transported objects from moving about (5L0 061 210)

Net beneath the luggage compartment lid
A washable upper pocket with zipper and lower net will enhance the vehicle interior with two additional stowage areas. It can be used also for longer objects weighing less than 1.5 kg (DMK 630 002)

Plastic boot dish provides maximum protection of the boot from dirt of all types, including acid. It has a high rim, is exceptionally strong and easy to clean (5L6 061 162)

Rubber boot mat
Whether you are carrying dirty sports equipment, construction material, paint or even acid, reliably protects your trunk. High edge retains all the fluid material is washable and antiskid (5L6 061 160B for luggage compartment without false boot; 5L6 061 160A for cargo space with intermediate floors)

Double-sided carpet provides a universal solution for the bottom of the boot. The velour side provides standard protection from soiling, while the non-slip plastic on the reverse side is there for transporting dirty or wet objects (5L6 061 163A for cars with false floor or spare wheel)

No photo:
Double-sided carpet into the luggage compartment for cars without false floor or spare wheel (5L6 061 163)

Textile mat
High-quality polypropylene rug with anti-slip surface finish forms to the shape of the luggage compartment to keep it clean and presentable (5L6 061 163B for cars without false floor; 5L6 061 163C for cars with false floor)

TRANSPORT

ŠKODA Genuine Accessories offer widely ranging possibilities for transporting sport equipment and large objects. With its unique Varioflex system for sliding or removing the rear seats, the Yeti has an extra-large transport capacity. You decide whether to transport bicycles on its roof, on the tow bar, or even directly inside the vehicle. ŠKODA Genuine Accessories products will help you make maximum use of the vehicle's transport potential. Thanks to their durable quality, tested safety and user comfort, these constitute the best transport solutions for ŠKODA Yeti vehicles.

Lockable bicycle carrier with aluminium profile; capacity up to 20 kg
The bicycle holder is the right thing for all ambitious bikers. The carrier consists of an aerodynamically shaped aluminium profile and holder of chrome-plated steel. Easy mounting crossbars allow for easy handling. It weighs around 3.2 kg. The bicycle holder tested in City-Crash test is lockable (3T0 071 128B)

No photo:
Lockable bicycle carrier with metal profile (3T0 071 128)

Luggage basket; including fastening net and straps (LBT 009 006)

Lockable ski or snowboard rack with aluminium profile;
capacity up to 4 pairs of skis or 2 snowboards (LBB 000 001)

No photo:
Lockable ski or snowboard rack with metal profile
Transport up to four pairs of skis or two snowboards on the roof of your vehicle - comfortably and safely. The ski and snowboard holder is not only easily mounted on the crossbars, but lockable also. The wide opening buttons lets you use the ski holder even in heavy gloves. Pull-out function makes loading and unloading easy. It is suitable even for transporting a wakeboard (LBT 071 027)

Lockable ski and snowboard box; capacity up to 5 pairs of skis or 4 snowboards; 380-litre capacity; successfully passed City Crash Test (5L6 071 175); in black metallic colour (5L6 071 175A); in white colour (5L6 071 175B)

Transverse roof rack The luggage rack control is very simple. To assemble and fix the luggage rack, turn the **eccentric lever** to the lower position (5L0 071 151)

The City Crash is a method of testing genuine accessories products that can be fitted to the vehicle's body.
Method: „A section of the body is fitted to special skids, which are travelling at a speed of 30 km/h. At the moment of the simulated collision, the force reaches between 9 and 12 G's and lasts for 80 ms.
Evaluation: In order to successfully pass the City Crash test, none of the transported objects may get detached from the body, which demonstrates that the safety of both pedestrians and other vehicles in real traffic is not endangered by the product.

(EEA 630 001)

Plush Yeti

The 70 cm tall Yeti makes the perfect companion for children travelling in the rear seats. Its long fur makes it second to none for cuddling (5L0 099 301)

Bicycle carrier for a tow bar can hold two bicycles weighing up to 25 kg each. Lockable bolts permit flexible handling and better anchoring (000 071 105B)

SAFETY

The safety of the occupants and security of the vehicle itself should be the driver's top priorities. That is why the ŠKODA Genuine Accessories range includes products to assist you to maximize safety and security. Among ŠKODA Genuine Accessories you will find certified child seats, antitheft security systems, security wheel lug nuts, mandatory equipment components, storage spaces for stowing potentially dangerous objects, and other accessories that will help you travel in safety.

Child seats - keeping our little ones comfy and safe

Do you want your children to sit in the safest spot possible? Child seats from ŠKODA Genuine Accessories with ISOFIX reliable anchoring, Top Tether attachment, the choice of travelling while facing forward or backward, comfort and adjustment to respect the child's growth provide the best solutions for transporting the smallest passengers.

Original ŠKODA child seats successfully passed the Euro NCAP tests.

Practical and variable

Smart seat design allows the child to sit not only at the back, but also next to the driver, where you can see him or her better. The seats are distinguished by variability and many setting positions, so that they can adjust to your child's changing size. They also can be used outside of the car as a carrier for transporting the child or as a practical seat.

Perfectly tested

The certainty of maximum possible safety and quality can only be achieved through rigorous testing. Therefore every seat in the ŠKODA Genuine Accessories line conforms with the ECE 44.04 European safety regulation and has passed a number of additional tests. Excellent results in the Euro NCAP crash test along with successful tests for non-flammability, absence of harmful substances, and lining quality confirm the seats' high quality and safety.

Snow chains with diagonal track design

and low link profile ensure excellent traction when accelerating and braking as well as good driving comfort. They are easy to install without needing to move the car. For tyre 225/50 R17 and 215/60 R16; suitable for rear wheels of 4x4 versions only (5L0 091 355)

Quality **chains of titanium alloy** with stranded fastening system can be rapidly fitted to the stationary vehicle and can give you better guidance. For tyre 205/55 R16 6.0Jx16" (5L0 091 355A); for tyre 205/50 R17 and 205/55 R16 7.0Jx16" (CEP 800 001)

Spare bulb set

for cars with fog lamps (5L0 052 000);
for cars without fog lamps (5L0 052 000A)

Mechanical gear-lever security

A lock on a brace connected to the car's chassis locks the gear selector for either a manual or automatic gearbox into the selected gear or park position, thus protecting your vehicle from theft (DVC 630 001 for manual transmission; DVC 630 002 for automatic transmission)

Safety bolt set prevents an unauthorized removal of the wheel by necessitating use of a special attachment (000 071 597C)

Central locking remote control (BKA 600 003A)

Foldable snow shovel made of alloy, weight 750 g, 3-part, including practical textile cover (5L0 099 320)

A handy, stable and highly visible **warning triangle** with foldable metal feet for emergency use on the roadway (GGA 700 001A)

First aid kit with contents conforming to amended Decree No. 216/2010 (GFA 410 010DE)

Lightweight reflective **safety vest** of 100% polyester in fluorescent yellow colour comes in a textile carrier. An important part of the vehicle's safety equipment (3T0 093 056); offered also in orange colour (XXA 009 001)

Tested **tow rope** permits towing of vehicles weighing up to 2,500 kg (GAA 500 001)

Rear parking sensors for monitoring distance of vehicle from potential obstacles. If there is an obstacle at a distance of 140 cm from the rear of the car, it is signaled by short beeps at intervals of one second. This interval is continuously shortened with the approach to the obstacle. When approaching 30 cm, beeps turns into unbroken tone (BKA 600 003A)

Alarm system with interior monitoring is equipped with advance resource to ensure the system's functionality after disconnecting the battery. Activates automatically after locking the car and monitors all doors, engine lid, ignition switch and vehicle interior. If there is an unallowable interference, control unit launches all directional lights and siren. Audio alarm lasts 25 seconds and can be induced repeatedly up to 10 times in a row. Basic alarm kit for cars with serial remote control of central locking (BKA 700 001); basic alarm kit for cars without serial remote control of central locking (BKA 700 002); mounting kit for alarm (BKA 630 001)

SIMPLY CLEVER STRATEGY

Every day brings new challenges to drivers. To help them manage these as best as they can, ŠKODA AUTO designs products while abiding by its "SIMPLY CLEVER" philosophy. Through ingenious and simple solutions that are invaluable in practice, ŠKODA shapes the world of cars according to the everyday needs of their users. An ice scraper you can get to even before you get inside a snowed under vehicle, or a double-sided mat for the boot, are just a small example of the famous Czech ingenuity, that wins even in the Yeti.

"SIMPLY CLEVER" features are popular not only because of their practicality, but also due to the fact that they are simple and therefore not costly solutions. ŠKODA vehicles can thus offer above-standard user friendliness while maintaining an equally advantageous purchase price.

Rubber mat for the baggage compartment

The rubber, water-resistant mat from ŠKODA Genuine Accessories will provide effortless protection for the vehicle's luggage compartment when transporting dirty objects. It will perfectly cover every nook and cranny, and, because it has high sidewalls, the mat also will protect the sides of the luggage compartment. It will stop mud from boots, dirt from sport equipment and accidentally spilled liquids.

Covers for complete wheels

Handy covers for a complete set of 14" to 18" wheels will make the seasonal wheel changing more pleasant while allowing you to safely store the wheels you are not currently using. Covers in ŠKODA colours are manufactured from strong materials and fitted with robust handles, which means they are tough and easy to carry. The practicality of the covers is further enhanced by such details as a pocket for the lug nuts and a pictogram indicating each wheel's placement on the vehicle.

Folding snow shovel

Carry a snow shovel in your car? Why not, if it is easy to store and weighs almost nothing! The ŠKODA shovel is made of aluminium alloy, so it is light and easy to handle. Because it can be disassembled into three pieces, it takes up minimal space in the boot. Even better, its plastic handle will not chill your hands even in winter.

Removable waste bin

Removable waste bin is an ideal example of ŠKODA Simply Clever products. Surely you were wondering many times, while driving, where to dispose of empty chewing gum wrapper, a crumpled bill or used tissue. With ŠKODA removable waste bin, all this tiny litter can be comfortably disposed of in one place and subsequently easily thrown away. So the interior of your car can remain clean.

ŠKODA Service App Allways on your side.

These products represent just a part of the wide range of accessories. For more information on the complete range, current prices, delivery terms and lead times, contact your authorised ŠKODA partner. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes (including changes in technical parameters or individual model equipment). This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.
